

**BRING HEALTH  
TO LIFE.  
TOGETHER.**

# ABOUT ABBOTT

**Dear Doctor,**

As you are aware, acquiring new knowledge and skills is crucial to the success of medical professionals. However, in these testing times, attending CMEs to update oneself will be increasingly difficult and also not advisable.

One of the important tools in our arsenal in today's times is the technology and digitalization. Abbott being a leader in Women's health would like to collaborate with clinical leaders like you for bringing the focus back on physician education, and welcome you to the eCME Initiative, as a part of our continuous endeavor of enhancing health through knowledge. A journey of thousand miles begins with a small step.

Abbott cordially invites you to the  
**e CME under the aegis of BSOG”**

Date: 20-10.2021

Time: 6-8 PM
