Women Sexuality Webinar Series

Sexual health & function are important determinants of Quality of Life. It is a key aspect of physical & psychological health. Sex is for procreation, recreation and relation. We need to highlight the importance of sexual values, sexual rights and sexuality education. "Sexual health awareness and education is needed for health care professionals and public alike.

"Any disease surgery or medication can have an impact on couple's relationship, love, intimacy, sexuality."

"Throughout a woman's life journey from womb to tomb, the gynaecologist plays a major role in her wellness & illness. The doctor becomes a part of her life.

"Holistic health can give "Health, Happiness and Harmony to the woman & her family.

In this connection BSOG along with KSOGA & CSEPI is starting a series of sexual health awareness programmes.

This series of webinar is planned to be conducted on the **Second Thursday** of every month between **7.00pm to 9.00pm**. These webinars include International and National faculties who are working in the areas of women's sexuality.
